Thiruvananthapuram, Kerala, India

Objective

To contribute to a dynamic organization as a Software Engineer, where I can utilize my strong technical skills, creativity, and passion for building user-friendly interfaces. I aim to collaborate with cross-functional teams, continuously learn and grow, and contribute to the development of innovative and visually appealing web applications that enhance user experiences

Experience

Software Engineer, IBIL SOLUTIONS March 2023 – Present

- Constructed adaptable websites and web applications employing semantic HTML, React, JavaScript, TypeScript, Next.js, SCSS, and CSS.
- Wrote clean, efficient, and maintainable code .
- Designed and integrated user interface components using React.js principles and JavaScript concepts
- Collaborated with backend developers and designers to improve usability and user experience.
- Engaged with product managers to ensure technical viability and optimize user satisfaction.
- Led a team of 5 members during the final phase of a project, overseeing front-end development.

Junior Software Developer , AIMS Solutions Pvt Ltd October 2022 – March 2023

- Contributed to web page development and its functionalities.
- Played a key role in creating and monitoring admin handling web pages using C#, ASP.NET, and SAP objects.

Education

B TECH IN ELECTRONICS AND COMMUNICATION, ACE COLLEGE OF ENGINEERING 2018-2022

- CGPA- 8.35

12th, HOLY ANGELS CONVENT HSS 2016-2018

- Percentage – 91

10th, HOLY ANGELS CONVENT HSS 2016

- Percentage – 99

Projects

WorkPlus (IBIL Solutions)

- WorkPlus is an enterprise workforce and employee management platform designed to streamline HR operations, attendance, leave management, approvals, and timesheet tracking across web and mobile applications.
- Designed and documented detailed system workflows and technical specifications through comprehensive internal wiki documentation for team collaboration and onboarding.
- Worked on integrating **LLM-powered AI features** for intelligent timesheet automation, enabling users to upload weekly timesheet screenshots and automatically extract and populate timesheet data using OCR and AI-based data parsing.
- Built responsive and scalable user interfaces using **React.js, Next.js, TypeScript, Tailwind CSS, and React Native**, ensuring seamless experience across desktop and mobile devices.

NIDD (IBIL Solutions)

- NIDD is a consultation platform designed to support children with disabilities, featuring two dedicated applications: one for clients (parents/guardians) and another for care providers.

- Developed and integrated Vonage Video SDK for real-time video consultations between clients and providers.
- Implemented secure **Stripe** payment integration for session bookings and invoice management.
- Built responsive, accessible, and scalable interfaces using **Next.js, TypeScript, Tailwind CSS, and React Native** to support both web and mobile platforms.
- Collaborated with cross-functional teams to ensure a smooth user experience across both applications, with role-specific dashboards and workflows.

LIIGHTHOUSE (IBIL Solutions)

- Led front-end development for a large-scale project, improving page load times by **20%** through optimized code and resource management.
- Developed and maintained full stack web applications using **Next.js, React, TypeScript, and AWS**, increasing platform performance by **15%**.
- Designed and integrated user interface components, reducing UI bugs by **30%** through rigorous testing and debugging.

GEMEX (IBIL Solutions)

<https://account.gemxdev.com>

- GEMEX is an advanced platform designed for the sale of cannabis in the USA for medical purposes. This application features four key modules: Account Creation, Business, Community, and Admin Portal, each critical to the platform's functionality and user experience.
- Developed using **Next.js, TypeScript, HTML, and SASS**.
- Built a comprehensive **UI kit** for consistent design and used **Cypress** for end-to-end testing.
- Led a team of 5 developers in the final phase of a project, ensuring successful delivery on time, resulting in a **95% client satisfaction rate**.

HAVEN (IBIL Solutions)

- Developed a responsive website with **React, JavaScript, CSS, and Bootstrap**.
- Ensured platform stability through unit testing and operational support.

BILLING SOFTWARE (AIMS)

- Built a secure billing solution using **C#, .NET, and MS SQL**.
- Focused on full stack development and database management.

CARE (AIMS)

- Developed a responsive website using **React, JavaScript, and CSS**, increasing mobile compatibility by **40%**.
- Assisted in system integrations and resolved technical issues, reducing support tickets by **15%**.

Skills

PROGRAMMING LANGUAGES: JavaScript, TypeScript, C Sharp, Python

WEB DEVELOPMENT: ASP.NET, React, ReactStrap, HTML, CSS, Bootstrap, SASS, Next js, Tailwind CSS

AI-Assisted Development: Claude Code, Cursor, v0, Vibe Coding, LLM Integration, Prompt Engineering

DATABASE MANAGEMENT: MS SQL

SOFTWARE AND TOOLS: CST Studio Suite, Visual Studio Code, Git, Bitbucket, Prettier, GitLens, Jira, Zoho, Cypress, Figma

OFFICE SOFTWARE: MS Word, MS Excel, PowerPoint, Outlook, Microsoft SQL Server Management Studio (SSMS), Microsoft Teams

STRENGTHS: Leadership and Team Collaboration, Problem-Solving and Troubleshooting, Adaptability and Learning Agility, Project Management, Quality Assurance and Testing, Continuous Improvement and Innovation

LANGUAGES: English, Malayalam, Hindi, Urdu, Tamil and Arabic
